Buffalo, New York

Dear Steina:

Understand that you called while I was in Caracas to ask about your tapes that were shown at the Video Arte Show at the Museum of Contemporary Art there by my selection. By the way, the catalogue is not representative of the tapes that were shown there because Margarita D'Amico wrote it long before the show was selected and she did not select the tapes.

The tape of yours which was provided by Electronic Arts Intermix was "Home" and it has been acquired on lifelong rental. We obtained over ten hours of tape and Howard was good enough to give a 10% discount on that large quantity and they are in the permanent collection of the museum and the museum has signed an agreement that they will not be copied or used except for educational and art world showings.

The section of "Let It Be" is the small section that is in "Video The New Wave" from WGBH, which was also acquired as part of the Intermix package. I hope this will explain the matter to your and Woody's satisfaction and that we'll be seeing each other some time soon.

Love,

Geré
