Buffalo,  
New York 14202.

Dear Woody and Steina,

We wish to thank you for participating in 'Artists Video', and we enclose copies of the Exhibition Catalogue which we hope you will find interesting. Your work was very well received, and particularly valuable when evaluating the similarities and differences between American and European Video Synthesis.

This was the first Exhibition of Video Art, to be held in the North East of England, and proved to be very successful. The show was held in Washington's main Shopping Centre, this location being an attempt to integrate art with everyday activity. This proved to be a very successful approach, not only did the Exhibition attract and sustain the interest of many local people, but it also drew visitors from most other parts of England. Amongst the visitors were reviewers from 'Video' ( a British Trade Magazine ) and 'Studio International'.

Another measure of the show's impact is the amount of interest and plans that it has generated concerning the development of Video Art activity in this part of the Country.

Your tape has been posted under separate cover, and your exhibition fee should be arriving shortly.

If ever you are visiting Britain, perhaps you could let us know and we can arrange something.

Thanks again for your contribution towards the success of this Exhibition.

Regards,

Brian Hoey and Wendy Brown ( Artists in Residence )
